designer Marco Capeto

La lampada da tavolo è composta da un unico elemento in lamiera d'acciaio che funge da base circolare, asta e portalamпада. La semplicità e il minimalismo delle linee conferiscono all'oggetto un senso di leggerezza e sospensione nell'aria. La luce è ridotta alla sua espressione più pura con lampada e cavo a vista.

This table lamp is composed of a single metal element which acts as circle base, pole and lampshade. The simple and minimal design of its outline give to this object a sense of lightness and suspension. Light is reduced to its purest expression with bulb and electric flex in sight.
