

PRIMA

designer Licio Tamborrino

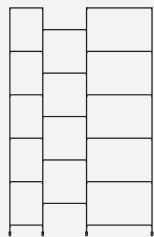

Prima, come il progetto numero 1 di Officine Tamborrino.

Design minimale, leggerezza e solidità. Interamente realizzata in lamiera d'acciaio, la libreria Prima si compone di semplici elementi verticali e orizzontali, uniti da un pratico sistema ad incastro, che consentono di comporre i moduli nelle varie dimensioni e adattarla ai diversi spazi. Prima è proposta con schienali pieni o con pattern lavorati al laser, accessori e finiture che completano la gamma.

Prima means first one, like Officine Tamborrino's first project.

Characterized by minimal design, lightness and solidity.

Entirely made of steel plate, Prima bookshelf is composed of simple vertical and horizontal elements, assembled by means of a practical interlocking system, to compose customized modules in several sizes and fit for different applications. Prima is provided with plain or laser-cut backside cladding panels and with several accessories and finish according to our wide range available.
