# VINILE

designer Licio Tamborrino

Cassettiera metallica modulare che ri-propone le forme dei tradizionali classificatori da ufficio di un tempo, per collocarli in spazi moderni. Con la sua struttura in metallo e colori attuali, Vinile è adatto ad arredare ambienti moderni recuperando l'idea del contenitore dei vecchi dischi in vinile ed estendendo la sua funzione agli oggetti di uso quotidiano.

*A modular metal chest of drawers which resembles and reinterprets the old-fashioned archives for offices in a contemporary style. Thanks to its metal structure and modern colours, VINILE is the ideal solution to furnish contemporary contexts, by retrieving the concept and function of old-fashioned storage units for vinyls and extending them to other daily life objects.*
